My dear Friend:

90 I omitted to say to you declaratorily that Ann is the child of one who respects and esteems you most highly and whose gratitude to you is unbounded. I do not wish her to be bound out but to be placed where I can pay for her board, clothing & tuition. This I will do out of my salary. But, as you suggested, it might be well for her to be temporarily taken care of by some good hearted friend like yourself, and if none offer in Ph^a. be pleased to take her with you to N. York as you handsly offered and take care of her in your family for a couple of months when some fine good money has happened to enable me to make other arrangements.

Please write for Ph^a.

God be with you & yours

Yours truly
